The LETTER.

Dear Cousin,

Since my arrival here, there hath hapned something so very strange, that I thought good to give you an account of it, just as I find it printed here: I have taken the pains to translate it verbatim. Sir, By this you will see that I have made some progress in the French Tongue, that I am able in eight weeks to translate a Sheet of Paper, which in it self is so very strange, that I will leave you to consider of it, and make what judgment you please of it. And so I humbly take my leave, and shall ever remain,

Dear Cousin,

Your obedient Servant,

Tholoufe,

Aug. 15. 1680.

Some

Some days ago arrived here in the City of *Tholoufa* Two Old Men, who called themselves *Apostles*, having the Spirit of Truth. None saw them come into the City: They are apparelled after such a manner as the like was never seen. They walk the Streets, and preach to the People Repentance and forsaking of their evil Lives, for the Wrath of God is kindled against the *Romans*. They say this City is a second *Sodom*, that the Iniquity of the People is ascended to the Heavens, and that within Three months (if they do not repent) the City shall perish by Fire. They have continued now eight days preaching in the City, bare-headed, and bare-footed, with joynd Hands. The Magistracy have forbidden them to preach; but they returned this Answer, That they were sent from God to move the People to Repentance. They were put in Prison, where the *Jesuits* went to visit them, and disputed with them in the *Latin*, *Hebrew*, and *Chaldean* Tongues. They know such as live a bad Life. Their Meat is Bread alone, and their Drink Water. They name the Day wherein the Lord shall come. Being asked how long it should be before the Day of Judgment? They answered, That the first day of the Year 1690. should be the last day of the World. They say, that they are a thousand Years of age. The Magistrates demanded of them whence they were? They answered, That they came from *Galadim* in *Damas* a City of *Galilea*, and sent by God to preach Repentance to the World. The *Jesuits* have prevailed with the Magistrates to let them be conveyed to *Rome*, to the *Pope*. The said *Apostles* say, that they knew very well what would become of them, and that it was not necessary that they should enchain them with such magnificence, and that they had a great desire to see *Rome*, and so broke the Chains all in pieces. The People were all astonished, and judged them Saints.
